

Digital Solutions Built Around Your Industry

Technology works best when it
understands the business behind it.

AI

SaaS

Data

Cloud

Product Engineering

Automation

PiTangent helps organizations across industries build, modernize, and scale digital solutions designed around their unique workflows, customers, operational challenges, and growth objectives.

From industry-specific applications to AI-powered automation, cloud transformation and enterprise platforms, we turn industry challenges into technology opportunities.

PiTangent Analytics & Technology Solutions Pvt. Ltd.

Technology That Understands Your Industry

Different Industries. Different Challenges.
One Technology Partner.

A healthcare organization does not operate like a retailer.

A construction company does not manage projects like a fintech platform.

A logistics business does not have the same workflows as a legal practice.

Technology should reflect those differences.

PiTangent combines technology expertise with domain understanding to build solutions around the way businesses actually operate.

We help organizations:

- Digitize manual processes
- Build industry-specific software
- Automate repetitive workflows
- Improve customer experiences
- Connect disconnected systems
- Unlock business data
- Introduce AI & intelligent automation
- Modernize legacy applications
- Build scalable SaaS platforms
- Extend their engineering capabilities

Our Industry Focus

BFSI Healthcare Education Real Estate Construction Manufacturing
Retail & E-commerce Logistics Legal Travel & Hospitality Agriculture
Farming Fitness Care Sports Food Delivery Grocery Car Rental
Beauty & Wellness

One Technology Foundation. Adapted to Your Business

Regardless of industry, most organizations face a combination of five fundamental technology challenges.

Customer Experience

Customers expect faster, simpler, and more personalized digital experiences.

PiTangent capabilities:

- Web applications
- Mobile applications
- Customer portals
- UX/UI
- Personalization
- Self-service platforms

Operational Efficiency

Manual processes create delays, errors, and unnecessary operational costs.

PiTangent capabilities:

- Workflow automation
- AI agents
- Business applications
- ERP
- Process digitization
- System integrations

Data & Decision-Making

Businesses generate enormous amounts of data but often struggle to turn it into actionable intelligence.

PiTangent capabilities:

- Data engineering
- Business intelligence
- Analytics
- Machine learning
- Predictive analytics
- AI-powered insights

Technology Modernization

Legacy technology can make it difficult to innovate and scale.

PiTangent capabilities:

- Software modernization
- Cloud migration
- Application rescue
- API modernization
- DevOps
- Architecture transformation

Scale & Innovation

Growing businesses need technology that can evolve with them.

PiTangent capabilities:

- SaaS product engineering
- Cloud development
- Scalable architecture
- Dedicated engineering teams
- IT staff augmentation
- Product development

FinTech & BFSI

Building Secure, Intelligent Financial Experiences

Financial services require technology that balances **security, reliability, compliance, performance, and customer experience.**

PiTangent helps financial organizations build and modernize digital platforms that support financial operations, customer engagement, analytics and automation.

We help organizations:

AI & ANALYTICS

- Risk analytics
- Predictive modeling
- Intelligent document processing
- Customer insights
- Fraud detection support

DIGITAL BANKING & FINANCIAL PLATFORMS

- Customer portals
- Financial dashboards
- Account management
- Digital onboarding

FINTECH APPLICATIONS

- Payment platforms
- Financial management applications
- Investment platforms
- Lending solutions

ENTERPRISE TECHNOLOGY

- CRM & ERP integrations
- API integrations
- Legacy modernization
- Workflow automation

APIs

Enterprise Integrations

Education & EdTech

Make Learning More Connected, Accessible & Intelligent

Technology is transforming how students learn, how educators teach and how institutions manage operations.

PiTangent builds digital education platforms that connect learners, educators and administrators.

Solutions We Can Build

LEARNING PLATFORMS

- Learning management systems
- Online course platforms
- Virtual classrooms
- Training platforms

STUDENT EXPERIENCE

- Student portals
- Mobile learning
- Assessments
- Progress tracking

INSTITUTION MANAGEMENT

- Administration systems
- Attendance
- Scheduling
- Communication platforms

AI & ANALYTICS

- Intelligent student support
- Personalized learning
- Performance analytics
- Automated assistance

Operational Efficiency

Healthcare & HealthTech Technology Designed Around Better Healthcare Experiences

Healthcare technology must bring together **patients, healthcare professionals, operational teams and data** while maintaining usability, security and reliability.

PiTangent develops digital solutions that support healthcare organizations and health-focused technology businesses.

Solutions We Can Build

PATIENT EXPERIENCES

- Patient portals
- Appointment platforms
- Telemedicine applications
- Mobile healthcare applications

HEALTHCARE OPERATIONS

- Scheduling systems
- Workflow automation
- Staff management
- Administrative platforms

HEALTHCARE DATA

- Analytics dashboards
- Reporting platforms
- Data integration
- Predictive analytics

CONNECTED HEALTHCARE

- IoT-enabled applications
- Wearable integrations
- Remote monitoring
- Device to platform connectivity

Business Priorities

Patient Experience

Data Security

Operational Efficiency

Accessibility

Scalability

PiTangent's current website highlights healthcare, including patient-focused applications and healthcare technology solutions.

Real Estate & PropTech

Digitize the Property Lifecycle

Real estate businesses manage large amounts of property, customer, financial, and operational information.

PiTangent builds platforms that bring these processes together.

Solutions We Can Build

PROPERTY MANAGEMENT

- Property management
- Tenant portals
- Maintenance workflows
- Property databases

CRM & SALES

- Lead management
- Customer relationship management
- Sales dashboards
- Automated communication

DATA & ANALYTICS

- Property analytics
- Sales performance
- Market intelligence
- Business dashboards

PROPERTY MARKETPLACES

- Listing platforms
- Search and discovery
- Property matching
- Agent portals

Business Priorities

Lead Generation

Customer Experience

Property Operations

Data Visibility

Automation

PiTangent's current product-engineering content specifically references property management platforms, listing marketplaces, and CRM tools.

Construction & Project Management

Digitize Projects From Planning to Delivery

Construction businesses manage people, contractors, budgets, documents, timelines, materials, and multiple stakeholders simultaneously.

Technology can bring these moving parts into one connected ecosystem.

Solutions We Can Build

PROJECT MANAGEMENT

- Project dashboards
- Milestone tracking
- Task management
- Progress monitoring

FIELD OPERATIONS

- Mobile applications
- Workforce management
- Field reporting
- Site updates

FINANCIAL & COMMERCIAL

- Budget tracking
- Cost management
- Invoice workflows
- Financial reporting

AI & AUTOMATION

- Document analysis
- Tender analysis
- Workflow automation
- Intelligent reporting

Business Priorities

Project Visibility

Cost Control

Collaboration

Field Productivity

Risk Management

PiTangent's current website specifically highlights construction applications including AI-powered tender analysis and response drafting.

Manufacturing & Industry 4.0

Connect Operations, Data and Intelligence

Manufacturing organizations need visibility across production, inventory, supply chains, equipment and workforce.

PiTangent helps manufacturers digitize operations and create connected technology ecosystems.

Solutions We Can Build

PRODUCTION

- Production management
- Workflow automation
- Operational dashboards
- Quality management

INVENTORY

- Inventory management
- Stock monitoring
- Procurement workflows
- Supply chain integration

DATA & ANALYTICS

- Production analytics
- Performance dashboards
- Predictive analytics
- Business intelligence

CONNECTED OPERATIONS

- IoT integrations
- Machine data
- Automated workflows
- Cloud platforms

Business Priorities

Operational Efficiency

Visibility

Quality

Predictability

Cost Optimization

Retail & E-commerce Build Better Commerce Experiences

Customers expect convenient, personalized, and seamless experiences across every digital touchpoint.

PiTangent helps retailers and e-commerce businesses build technology that connects customers, products, transactions, & operations.

Solutions We Can Build

DIGITAL COMMERCE

- E-commerce platforms
- Mobile commerce
- Product catalogues
- Shopping experiences

CUSTOMER EXPERIENCE

- Personalization
- Recommendations
- Loyalty platforms
- Customer portals

OPERATIONS

- Inventory management
- Order management
- Payment integration
- Admin platforms

AI & ANALYTICS

- Recommendation engines
- Customer analytics
- Demand forecasting
- Intelligent automation

Business Priorities

Conversion

Customer Experience

Personalization

Operational Efficiency

Scalability

Logistics & Transportation

Connect Every Move

Modern logistics depends on visibility, coordination and timely decision-making.

PiTangent develops technology that helps logistics businesses connect customers, vehicles, drivers, shipments, operations and data.

Solutions We Can Build

LOGISTICS PLATFORMS

- Transportation management
- Freight platforms
- Shipment management
- Customer portals

FLEET & MOBILITY

- Fleet management
- Driver applications
- GPS integrations
- Real-time tracking

OPERATIONS

- Route optimization
- Dispatch management
- Workflow automation
- Operational dashboards

AI & ANALYTICS

- Demand forecasting
- Route optimization
- Predictive analytics
- Intelligent planning

Business Priorities

Visibility

Efficiency

Tracking

Optimization

Customer Experience

PiTangent currently highlights logistics and supply-chain transformation involving freight coordination, real-time tracking, and automated pricing.

Travel & Hospitality

Create Seamless Experiences

From Booking to Stay

Travelers expect convenience at every stage of their journey.

PiTangent builds digital experiences that simplify discovery, booking, customer engagement, and operational management.

Solutions We Can Build

BOOKING PLATFORMS

- Hotel booking
- Travel booking
- Reservation systems
- Availability management

CUSTOMER EXPERIENCE

- Travel apps
- Guest portals
- Personalized recommendations
- Digital communication

OPERATIONS

- Property management
- Staff workflows
- Booking management
- Customer support

ANALYTICS

- Customer behavior
- Booking analytics
- Revenue insights
- Business dashboards

Business Priorities

Conversion

Customer Loyalty

Operational Efficiency

Food Delivery & On-Demand Platforms

Engineer for Speed, Scale & Real-Time Operations

Food delivery platforms operate in a highly dynamic environment involving customers, restaurants, delivery partners, payments, and real-time logistics.

Solutions We Can Build

CUSTOMER APPLICATIONS

- Restaurant discovery
- Ordering
- Payments
- Order tracking

RESTAURANT PLATFORMS

- Restaurant dashboards
- Menu management
- Order management
- Analytics

DELIVERY OPERATIONS

- Driver applications
- Dispatch
- Route optimization
- Real-time tracking

PLATFORM INTELLIGENCE

- Recommendations
- Demand forecasting
- Dynamic workflows
- Analytics

Business Priorities

Speed

Reliability

Real-Time Visibility

Customer Experience

Scalability

PiTangent's current website includes food delivery among its industry expertise and references scalable food-delivery platforms.

Agriculture & FarmingBring Intelligence and Connectivity to Agriculture

Technology can help agricultural businesses improve access to information, monitor operations, and connect stakeholders across the farming ecosystem.

Solutions We Can Build

FARM MANAGEMENT

- E-commerce platforms
- Mobile commerce
- Product catalogues
- Shopping experiences

MARKETPLACE & COMMERCE

- Personalization
- Recommendations
- Loyalty platforms
- Customer portals

DATA & INTELLIGENCE

- Inventory management
- Order management
- Payment integration
- Admin platforms

CONNECTED AGRICULTURE

- Recommendation engines
- Customer analytics
- Demand forecasting
- Intelligent automation

Business Priorities

Productivity

Visibility

Resource Optimization

Market Access

Data-Driven Decisions

PiTangent's existing industry pages specifically describe applications around digitizing farming workflows and connecting agricultural stakeholders.

Legal Technology

Make Legal Workflows More Connected & Efficient

Legal professionals manage documents, cases, clients, deadlines, and large amounts of information.

PiTangent develops technology that can simplify these workflows while improving accessibility and collaboration.

Solutions We Can Build

LEGAL APPLICATIONS

- Client portals
- Lawyer platforms
- Case management
- Appointment systems

DOCUMENT INTELLIGENCE

- Document management
- Intelligent search
- Document classification
- AI-assisted workflows

PRACTICE MANAGEMENT

- Task management
- Scheduling
- Billing workflows
- Client communication

COMPLIANCE & SECURITY

- Access control
- Audit trails
- Secure document workflows
- Enterprise integrations

Business Priorities

Confidentiality

Efficiency

Accessibility

Compliance

Productivity

PiTangent's current legal technology offering includes client, lawyer, and administrative applications along with compliance-oriented software.

Fitness & Sports Technology

Build Better Experiences for Members, Athletes and Teams

Fitness and sports organizations increasingly rely on digital platforms to manage members, schedules, payments, activities and engagement.

Solutions We Can Build

FITNESS PLATFORMS

- Gym management
- Membership management
- Class scheduling
- Trainer management

MEMBER EXPERIENCE

- Mobile apps
- Booking
- Payments
- Notifications

SPORTS PLATFORMS

- Team management
- Event management
- Player management
- Performance tracking

ENGAGEMENT

- Personalized recommendations
- Activity tracking
- Loyalty systems
- Communication platforms

Business Priorities

Member Engagement

Retention

Convenience

Automation

Performance

Care Technology

Connecting People, Care Providers and Operations

Care organizations need technology that supports people while making operational workflows easier to manage.

PiTangent can develop digital platforms for different care environments, including child, pet, and elder care.

Solutions We Can Build

CARE MANAGEMENT

- Care scheduling
- Service management
- Staff coordination
- Care plans

CUSTOMER & FAMILY EXPERIENCE

- Family portals
- Booking
- Communication
- Notifications

PROVIDER MANAGEMENT

- Staff profiles
- Availability
- Assignment management
- Performance tracking

OPERATIONS

- Reporting
- Workflow automation
- Payments
- Administrative dashboards

Business Priorities

Trust

Accessibility

Coordination

Transparency

Operational Efficiency

PiTangent's current industry listings include care across child, pet, and elder care.

Grocery & Digital CommerceModernize Grocery From Storefront to Fulfilment

Grocery businesses require technology that connects customers, products, inventory, orders and delivery.

Solutions We Can Build

CUSTOMER EXPERIENCE

- Grocery shopping application
- Product discovery
- Personalized recommendations
- Digital payments

STORE OPERATIONS

- Inventory management
- Product management
- Pricing
- Promotions

ORDER MANAGEMENT

- Order processing
- Fulfilment
- Delivery coordination
- Customer notifications

BUSINESS INTELLIGENCE

- Sales analytics
- Inventory insights
- Customer analytics
- Demand forecasting

Business Priorities

Availability

Convenience

Order Accuracy

Delivery Efficiency

Car Rental & Mobility

Digitize the Journey From Booking to Return

Mobility businesses need technology that makes vehicle availability, reservations, customers, and operations easier to manage.

Solutions We Can Build

CUSTOMER APPLICATIONS

- Vehicle search
- Booking
- Payments
- Digital documents

FLEET MANAGEMENT

- Vehicle management
- Availability
- Maintenance tracking
- Fleet analytics

OPERATIONS

- Booking management
- Customer management
- Pricing
- Notifications

MOBILE & LOCATION

- GPS integrations
- Mobile applications
- Real-time updates
- Location-based services

Customer Experience

Beauty Salon & Wellness Technology

Turn Customer Relationships Into Digital Experiences

Beauty and wellness businesses need more than appointment booking. They need technology that helps attract, serve, and retain customers.

Solutions We Can Build

APPOINTMENT MANAGEMENT

- Online booking
- Calendar management
- Automated reminders
- Rescheduling

CUSTOMER MANAGEMENT

- Customer profiles
- Service history
- Preferences
- Loyalty programs

BUSINESS OPERATIONS

- Staff scheduling
- Service management
- Payments
- Reporting

CUSTOMER ENGAGEMENT

- Notifications
- Promotions
- Personalized offers
- Mobile applications

From Industry Challenge to Digital Solution

A Business-First Approach

07 OPTIMIZE

We continuously improve the platform through data, feedback, insights.

02 DISCOVER

We identify operational bottlenecks, customer pain points and technology gaps.

01 UNDERSTAND

We learn how your industry works, where your organization fits, and what challenges need to be solved.

03 DEFINE

We prioritize opportunities based on business impact, feasibility and strategic value.

06 LAUNCH

We deploy solutions with cloud, security, & operational infrastructure.

05 BUILD

Our engineering teams develop, integrate and test the solution.

04 DESIGN

We create the user experience, workflows and technology architecture.

Why Choose PiTangent as Your Technology Partner?

Domain Understanding Meets Engineering Expertise

INDUSTRY-AWARE

We understand that every sector has different workflows, users, regulations and operational requirements.

TECHNOLOGY DEPTH

Our capabilities span AI/ML, SaaS, web, mobile, data, cloud, enterprise systems and product engineering.

END-TO-END DELIVERY

From discovery and UX to development, deployment and continuous improvement.

SCALABLE THINKING

We design technology that can evolve as your business grows.

BUSINESS-FIRST APPROACH

Technology decisions are connected to business outcomes rather than technology trends.

FLEXIBLE ENGAGEMENT

Work with us on a defined project, dedicated team, staff augmentation model or long-term product engineering partnership.
